CAMP PROGRAMME REPORT

OBJECTIVE :

The main objective of the program was to educate the public about skin health ,diet and lifestyle for healthy skin and prevention of common skin diseases

PROGRAM DETAILS :

Welcome address and introduction

The program was commenced by a warm welcome given by the principal inviting the presenting members and the listeners. Followed by an introductory speech delivered by then HOD of dept.

The programme continued an enthusiastic approach with the involvement of interneers in their explanation.

Gave a theme Introduction to the program and the daily routine habits to be followed. Furthermore gave inputs on the topic of Common skin diseases and its occurrence. The preventive measures for those was clearly explained.

And also the importance of oil bath and its uses have been explained.

Briefly explained about the raw drugs and medicines used for skin diseases

Delivered an insightful talk on the importance of diet to be followed to avoid skin diseases.

Elaborated the significance of hygiene to be followed to avoid the skin related ailments.

IMPACT :

There was an active participation of the public with the count of 150 members. The Siddha Awareness Program created a meaningful bridge between traditional wisdom and community health awareness. The participants gained a clear understanding of the preventive, curative, and holistic approach of Siddha medicine. The program successfully enhanced public knowledge on natural remedies, lifestyle practices, and disease prevention through Siddha principles.

FEEDBACK :

The feedback received from participants was overwhelmingly positive and encouraging. Several participants requested similar awareness programs to be conducted regularly in the future. The Siddha Awareness Program concluded successfully, leaving a lasting impact on the participants and receiving commendable appreciation from the community.

ACKNOWLEDGEMENT :

The awareness program was able to reach its utmost success with the cooperation and team effort of the organising committee members and the beneficiary body. We extend our sincere thanks to our principal, hod and dept members for the time bound collaborative execution and the instant goodwill and support from the college management.
